On Saturday, an old gentleman named Wm. C. Osborne, well known in our city, who, from rheumatic affections, has not been able to walk or use his hands sufficient to feed himself for more than ten years, was brought to Professor De Grath on the street, where in the presence of a large assemblage of people, he applied De Grath's Electric Oil to one arm and shoulder. He was immediately enabled to raise his hand to his head and scratch it, a thing he said he had ot done before in twelve years.

On Saturday night at Temperance Hall, among the nume rous cases of the afflicted who came forward for relief was a Mr. Smith, who was so deaf that he could not hear the hump of his cane on the floor. By the application of the Electric Oil he was sufficiently relieved in five minutes to be able to converse in an ordinary tone, at a distance of fiteen

Numerous other cases could be mentioned did our space ermit. We advise the afflicted to call at Brooks & Chapman's and get De Grath's Electric Oil and be relieved. The Professor, or as he is generally known, "the man with the sugar-loaf hat," made his appearance in our streets yesterday, and attracted much attention from the eccentriity of his costume. He soon had an audience, and discoursed fluently on the virtues of his magic wares, and performed, it is said, some singular cures or relief of several suffer-

A RARE CHANCE FOR INVESTMENT!! Shingle Machines Reduced to a Fraction!!! CAMUEL M. KING'S SHINGLE MACHINE, now or exhibition at John C. Bailey's Machine Shop, Front st., below Market street, Wilmington, N. C., where it can be seen in operation, from the hours of 8 to 12 A. M., and from

The principle embraced in this machine corresponds exactly with the old and well known process of splitting and dressing by hand labor, working directly with the grain in the timber. It produces an article not liable to warp or check from exposure. This machine was patented, January 15th, 1856, and has already obtained a celebrity possessed by none other. The whole machine can be built for onethird the cost of any other, and will rive and shave from the bolt, from 8,000 to 15,000 Shingles per day. For this purpose it only requires a two-horse power to work it, at the same time you can make any required length, and it is adustable to any required thickness or taper; it is simple. cheap and durable; any ordinary mechanic can make it and a boy may work it.

To Shingle and Stave dealers, Lumbermen, Capitalists. and Speculators, this machine is a safe, sure, and profitable investment. We invite all to call and see it in operation .-Any further information can be had by calling on the Pattentee or his Agents, one of whom will always be found with

a rival, volume after volume might be given from all parts building in the town of Goldsboro', favourably known of the world and from the most intelligent to prove that it is a perfect Restorative ; but read the circular and you cannot doubt; read also the following: THE HAIR .- People have for centuries been afflicted with bald heads, and the only remedy, heretofore known, has been those abominable wigs. By a recent discovery of Pro- IRON, # 1b. fessor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have

been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered present season at our Stables, (late residence of wm. Faison, dec'd.,) in Sampson County, and will nable. We know of numerous cases where hair was rapidly falling out which it restored in greater perfection th ever had been before. It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, re-

moving dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to. It is the duty of every one to improve their personal apdoing it : but every one will admit that a beautiful head of ed, and there are no means that should be left untried to obtain such a consideration.

COCHOCTON, Ohio, Nov. 17, 1856. O. J. WOOD & CO .- Gents: As I have been engaged in selling your Hair Restorative the last season for one of your local agents (B. M. Hackinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced there is nothing equal to it in the United States, for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that restores the secretive organs or invigorates the scalp as well as yours, being fully convinced | cording to quality. that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell. Yours truly, S. T. STOCKMAN.

WAYLAND, Mass., Feb. 5, 1857. Prof. O. J. WOOD & CO .- Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. In the op-

eration I have used nearly three bottles. JAMES FRANCIS. O. J. WOOD & CO., Proprietors, 312 Broadway, New Yours, &c., York, (in the great N. Y. FOR THE WEEK ENDING MAY 13TH, 1858.

TURPENTINE .- By reference to our table of sales below it will be seen that new virgin has advanced 50 cents on former quotation, while yellow dip and hard have declined 10 cents. There are few or no shippers in market, consequently the demand is confined to distillers, who readily take parcels containing new virgin. The week's receipts have been very light, the transactions reaching only 1,507 bbls.,

> BLE AND GIVEN UP TO DIE. DR. J. WILLIAMS-Dear Sir :- For fifteen years previous to 1854, I suffered so much from Dyspepsy, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my busi ness, and was sinking into a decline, and it was believed I never could recover; the best medical aid was procured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and from the time I began taking it I gradually improved till I was completely restored to health. The dreadful sufferings I endured from Dyspepsy I cannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solembly believe your "Elixir" has saved me from an early death. I continue now in the enjoyment of most excellent health.
